

CBMW Express/Paver Mixer

Your Partners in Quality.

CBMW Mixers
Continental Mfg.

The CBMW Express/Paver mixer is recognized as the standard for quality and performance in the ready mix industry. The unit combines high quality components, such as AR CR high strength steel, ultra heavy duty gearbox and hydraulics, with advanced mixer design to produce a ready mix transit machine providing long life with high speed charge, mix and discharge capabilities, including zero slump concrete. The mixer includes exceptionally durable pedestals and chutes to complement a clean-flow design that facilitates cleaning of the mixer.

Options include a wide array of items, such as: electronic controls, LED lights, night work lights, slump meter, air hopper, aluminum components, larger capacity water tank, ad-mix tank, double chute cylinder, rear vision camera, remote rear control unit with a cord of any length, wireless mixer controls, and extra drum hatch. The Paver mixer combines the features of the Express unit with a 47" discharge opening and bolted surge blades for the fastest uniform flow in the industry.
